PROFESSIONAL SUMMARY

NetSuite Developer and Technical Consultant with 6+ years of experience specializing in SuiteScript 2.1 development, REST API integrations, and ERP customization. Experienced in implementation, support, and continuous improvement of NetSuite environments for regional clients, complemented by freelance projects delivering 100+ custom solutions across manufacturing, logistics, WMS, and e-commerce. Oracle certified with deep expertise in Latin American tax compliance systems (CFE, CFDI, DTE). Proven track record building scalable, maintainable solutions that automate complex business processes.

PROFESSIONAL EXPERIENCE

NetSuite Consultant & Developer | Witbor *August 2025 – Present*

- Participating in NetSuite implementation and continuous improvement projects for regional clients
- Diagnosing and resolving complex incidents in NetSuite production environments
- Designing and developing customizations using SuiteScript 1.0, 2.0, and 2.1, including automations, validations, and custom reports
- Providing technical and functional support to users, collaborating with internal and client teams
- Creating technical and functional documentation for implemented solutions

NetSuite Consultant & Developer | BeApps Adistec *January 2023 – August 2025*

- Participated in implementation and continuous improvement projects for regional clients
- Diagnosed and resolved complex incidents in NetSuite production environments
- Designed and developed customizations using SuiteScript 1.0, 2.0, and 2.1, including automations, validations, and custom reports
- Provided technical and functional support to users, collaborating with internal and client teams
- Created technical and functional documentation for implemented solutions

NetSuite Developer | Adistec *December 2019 – December 2022*

- Developed custom SuiteScript scripts focused on process automation in finance, sales, and logistics
- Created and maintained workflows (SuiteFlow) and custom forms (SuiteBuilder)
- Provided support to key users, handled technical tickets, and improved existing processes
- Collaborated on system expansion to new countries/regions within the Adistec group
- Worked cross-functionally with IT, finance, and operations teams to integrate technical and functional requirements
